CAVAS is the fusion of the best of La Tahona

“Con La Tahona crecimos y maduramos juntos, siempre enfocados en lo mejor para los futuros habitantes de cada uno de los barrios. Hoy, en un terreno con características naturales superiores a todo lo circundante, logramos plasmar el barrio ideal para la gente que nos acompaña desde hace 30 años.

Cavas tiene verde, cañadas, viñedos, lagos, linda topografía, horizontes lejanos, vistas increíbles hacia el Este y la cancha de La Tahona Golf Club hacia el Oeste. Doble acceso, calles asfaltadas, club con gimnasio, canchas de tenis y de pádel y un sistema de seguridad de última tecnología.

Cavas es aire libre, es caminar y perderse, es enamorarse de la naturaleza. Cavas es sentarse a mirar un atardecer en la costa de un lago o en medio de un viñedo. Es encuentros en las plazas y los espacios verdes o un café en el Club. Cavas es que los más chicos circulen libremente con la seguridad de que están bien. Es el fuego calentito en casa, mirando los mejores paisajes. Salir en las mañanas frías de invierno o las tardecitas de verano a hacer ejercicio por las sendas peatonales y sentir el aire fresco junto al canto de los pájaros.

Cavas es la naturaleza enriquecida con el mejor confort que hoy nos da la tecnología.”

Arquitecto Federico Armas

“La Tahona and I grew and matured together, always focusing on the best for the future inhabitants of the neighbourhoods. Today, in a land with extraordinary natural characteristics, superior to everything surrounding it, we created the ideal neighbourhood for the people who have accompanied us these past 30 years.

Cavas has greenery, ravines, vineyards, lakes, beautiful topography, distant horizons, incredible views to the East and La Tahona Golf Club course to the West. Double access with paved streets, a club with a full gym, tennis and paddle courts, and a state-of-the-art security system.

Cavas is open air, Cavas is walking and getting lost, Cavas is falling in love with nature. Watching a sunset sitting on the shore of a lake or in the middle of a vineyard. It's meeting up at the *plazas* and green spaces or for a coffee at the Club. Cavas is the kids moving freely with the certainty that they are safely having a good time. It's enjoying a warm fire at home while looking out at the best landscapes. It's going out for a run on cold winter mornings or cool summer afternoons along the nature paths and feeling the fresh air while the birds sing.

Cavas is nature, enriched with the best comfort that technology can offer.”

Architect Federico Armas
